PROJECT ARCHITECT:
MEP & STRUCTURAL ENGINEERS:
CONTRACTOR:

The Thrasher Group, Bridgeport, WV
Allegheny Design Services, LLC, Morgantown, WV
March-Westin Company, Inc., Morgantown, WV

PROJECT SCOPE:

Allegheny Design Service has teamed up with Thrasher Engineering to provide Structural & MEP design services for a new AAC Block Factory in Keyser, WV. American's Best Block Company will operate the factory capable of producing 400m³ of autoclave aerated concrete block per day. There are currently only 3 block plants of this type operating in the United States. "AAC" block is a porous, lightweight, and fireproof material used in construction. The production line will utilize "green" processes by using reclaimed water for block production.

PROJECT COMPLETION: 2017
