

PROJECT PROFILE

Harrison—Taylor 911 Center Clarksburg, WV

PROJECT ARCHITECT:
MEP ENGINEER:

WYK Associates, Inc., Clarksburg, WV
Allegheny Design Services, LLC, Morgantown, WV

PROJECT SCOPE:

Construction will start in 2017 on a new emergency dispatch center for Harrison and Taylor counties. The two-story, 20,000 square foot facility is to be built on the Quarry property in Summit Park. The project will also include a 10,000 square foot building to house a radio maintenance garage and a shelter-in-place/emergency staging area. The project should take 12-18 months to complete, depending on the weather. Construction will start in May or June at the latest. Allegheny Design will be working with WYK Associates to provide the structural, mechanical, plumbing, and electrical engineering for the project.

PROJECT VALUE:

\$ 7..5 Million

PROJECT COMPLETION:

2018
