Service Spotlight

One of the Largest
General Purpose
Classroom Buildings on
the WVU Campus!

Link to [Additional
Resources](#).

**Contractor: March-Westin Company, Inc.
Morgantown, WV**

**Funded by D&E Trustee Emerita June Myles,
the project calls for a more than 6,000-
square-foot glass enclosed addition which
will nearly double the size of The Joni and
Buck Smith Arts Forum, a two-story stone
and brick rotunda main entrance, and the
installation of an elevator, additional
restrooms and a warming kitchen.**

**Myles Plaza will see a complete renovation
as well. Following curvilinear lines inspired
by musical influences, the space will feature
walking paths, grassy areas, sections for
conversations and a tiered seating area that
can be used as an outdoor classroom. The
stone Vietnam Veterans Memorial honoring
D&E alumni who gave their lives will be
relocated. A 10-foot-tall bronze sculpture
commissioned by Myles will accentuate the
plaza.**

**The breakdown of the two-story addition
and renovation of the existing Myles Center
for the Arts building will include
approximately 5,400 SF, 2-story open lobby
area and 1,250 SF rotunda. The renovation
area includes a 11,900 SF 1st floor area
consisting of an event space, fitness studio,
restrooms, warming kitchen, gallery, and
new elevator with access to the basement,
and the 3,500 SF 2nd floor space. The
existing building is located at Davis & Elkins
College in Elkins, WV.**

**Project Value: \$6.6 Million
Project Completion: 2020**

HEALTH CARE

**Mon General Hospital Retail Pharmacy
Morgantown, WV**

Architect: Paradigm Architecture, Inc., Morgantown, WV

MEP Engineers: Allegheny Design Services, Morgantown, WV

Contractor: Landau Building Company, Wexford, PA

A 1,000 SF Pharmacy renovation located at Mon General Hospital in Morgantown, WV. The existing work room, volunteer office, gift shop office, and portion of the gift shop was demolished and the new fitout included an open pharmacy and one enclosed office.

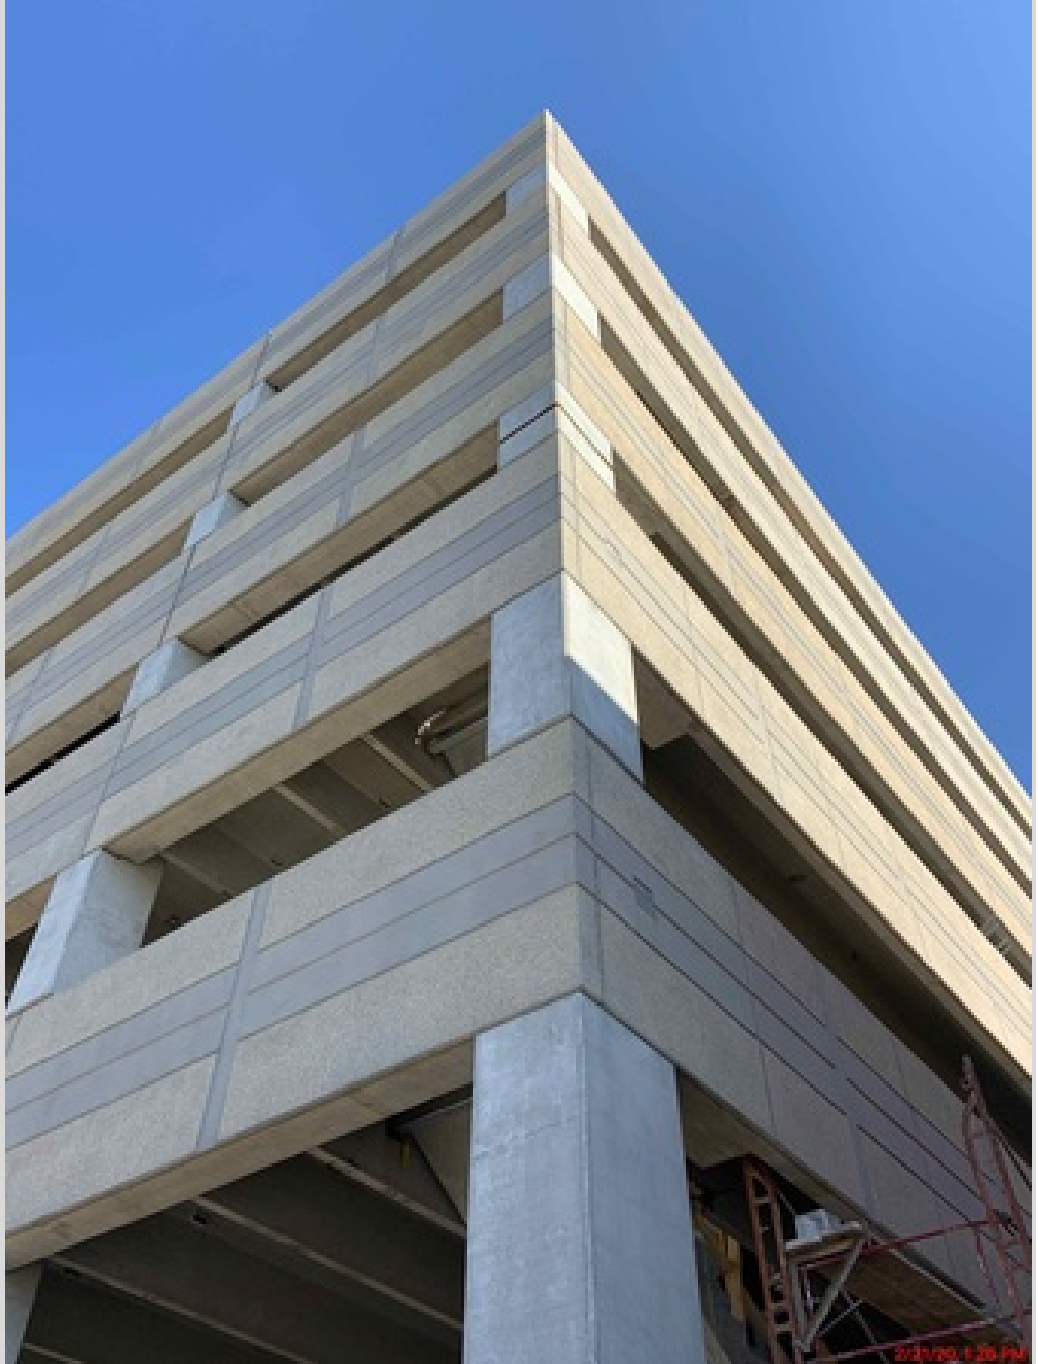

Other projects we are currently working on at Mon General Hospital include:

Mon General LTAC for Acuity

A 5,995 SF heavy renovation of LTAC support space, 1,483 light renovation of LTAC support space, 585 SF heavy renovation of MHMC support space and 200 SF heavy renovation of MHMC patient room. Renovations for (2) equipment rooms and a doctor dictation nook, a nourishment area and EVS room, a lounge/office/locker room, a break room, and a dialysis room.

PARKING GARAGES

**WVU Mountaineer Station—Phase II
Morgantown, WV**

Architect: Paradigm Architecture, Inc., Morgantown, WV

**Structural & MEP Engineers: Allegheny Design Services,
Morgantown, WV**

Contractor: March-Westin Co., Inc., Morgantown, WV

The Mountaineer Station II, Morgantown, WV is rolling right along. Photo courtesy of March-Westin Company, Inc. of Morgantown, the Project Contractor for the project.

ADS is happy to be working with the team of Paradigm Architecture of Morgantown, WV as well as March-Westin on this project.

ADS was involved with Mountaineer Station back in 2009, 11 Years Ago!

Here is a little history regarding the original project.

Hodges Hall Renovation

- No Major Improvements Since Opening in 1950
- Interior Demo: Late 2018
- Completion: Late 2020
- Program Summary
 - Eberly Office of Undergraduate Studies
 - Women's and Gender Studies
 - Native American Studies
 - Foreign Languages
 - Testing Center
 - Classrooms

Hodges Hall Renovation Morgantown, WV

**Architect & Engineer of Record:
Cannon Design, Pittsburgh, PA**

**Contractor: March-Westin Co.
Morgantown, WV**

Hodges Hall has seen no major renovations since its opening in 1950, It is one of the largest general-purpose classroom buildings on campus and is in the process of getting some much needed major upgrades to meet the needs of today's faculty and students. The renovated Hodges will also include a new 210-seat, centralized testing center. The College of Arts and Sciences will occupy the upper floors with these programs: Women and Gender Studies, Native American Studies and World Languages, Literature, and Linguistics. ADS Engineers is proud to be a part of this renovation, for generations to come.

ADS will be providing Coordination services for the MEP contractors and Construction Phase Engineering support .
