

PROJECT PROFILE

**Mountaintop Beverage Company
Manufacturing Facility
Morgantown, WV**

PROJECT ARCHITECT:
STRUCTURAL ENGINEER:
CONTRACTOR:

Structura Architects, Akron, Ohio
Allegheny Design Services, LLC, Morgantown, WV
March-Westin Company, Inc., Morgantown, WV

PROJECT SCOPE:

A New 249,000 Sq. Ft Manufacturing Facility located at 6000 Rail Street in Morgantown, WV. ADS completed the structural design of the project and served as the Structural Engineer of Record. ADS is very excited about being a part of this Manufacturing project that will bring so much to our state. The new 249,000 SF Facility will employ close to 100 and will grow from there. The plant will be an aseptic packaging plant with ultra-pasteurization that extends dairy shelf-life without refrigeration. "Fun Fact:" Aseptic packaging consists of filling and sealing a sterilized packaging material with a sterilized product. Aseptic packaging material not only has to assure sterile conditions within the package and protect the product from physical damage, but also maintain the quality of the product inside the packaging.

PROJECT VALUE: \$85 Million

PROJECT COMPLETION: 2023
